

Continuing Care Month

#sharethecare

Northwood Bedford Campus

Submitted by Jennifer Tucker, Clinical Practice Manager at Northwood

Fine Dining at Northwood's 'Memories of Thyme' Restaurant

Sharing an exceptional meal with family and friends is a cornerstone pleasure of life. When someone enters continuing care, specifically long-term care, and have changing physical and cognitive abilities, going to a restaurant to share a meal can become a difficult or impossible activity for many.

'Memories of Thyme' aims to meet a need for those living in long-term care at the Bedford campus by providing a fun, quality of life enhancing experience without leaving the premises. Every other month the Adult Day dining room at the Northwood Bedford campus is transformed into 'Memories of Thyme' a fine dining restaurant.

"It's impossible to find words, but here's a try – My guests were so pleased with the food quality, servings, wines, dessert. And the service – so calm, professional, so perfectly smooth! I endorse this entirely. Thank you."

– A Resident

Staff at Northwood are dedicated to their residents' happiness and care, clearly demonstrated by this initiative which has had many positive reviews from residents and their families who have been able to enjoy this unique experience at Northwood Bedford Campus.

"This has been a very special and wonderful experience to share with my loved ones. I enjoy the effort and all work involved, the atmosphere and attentive volunteers are a breath of fresh air!"

– Resident Guest

About Northwood

Northwood, established in 1962, is the largest not-for-profit continuing care organization in Atlantic Canada. They are committed to delivering quality care by ensuring that clients can flourish in a community of belonging, dignity, and choice. Continuing care employees at Northwood go above and beyond by building meaningful relationships with clients every day:

"It's not just about the care we provide, but also the conversation we have while doing it"

– Northwood Employee
